Welcome to Skype

Getting started with Skype

Make calls and video calls with Skype on your TV.

Made possible by Internet@TV - bringing useful and entertaining features directly from the web to your TV.

NOTE

- Connect your webcam directly to the TV, not through a USB hub.
- If the webcam isn't working properly, turn the TV off then on again, and relaunch Skype.
- Skype is disabled when the TV is turned off.
- Voice quality may be affected in a noisy environment.
- Using a wireless network can degrade call quality.
- Use of the Skype software is subject to the Skype End User License Agreement (skype.com/legal/eula), Skype Terms of Service (skype.com/legal/tos) and the Skype Privacy Policy (skype.com/legal/privacy/general).
- If Skype is deleted or upgraded, saved information (History and Options) is deleted.
- For help using Skype, visit skype.com
- SMS(short message service) and instant messaging are not available.
- You need to configure your network before using Skype on your TV. See instructions in this manual.

Screen display

The picture from your webcam is displayed under **My video**.

If you haven't connected a webcam yet, you will see the message "We can't detect your webcam..." Connect your TV compatible webcam into a USB port on the back of your TV. Buy compatible webcams from skype.com/

Your Skype Name, online status, credit balance and mood message are displayed here, next to your profile picture.

Select from the menu items **Contact**, **History**, **Call phones**, and **Options**. From the menu item press **ENTER** and scroll to the desired option.

The picture from your webcam is displayed here.

- **Sign out**: Select to Sign out or Quit Skype.
- **Online status**: Select your status.
- **Add contact**: Add a Skype contact or a phone number.
- **Camera off**: Switches to a voice call.
- **Options**: Displays the Options menu.

Signing into Skype

When running **Skype** on your TV for the first time, enter your **Skype Name** and **password** or create an account. If you can't login, check the network connection.

To sign in with an existing account:

✎ If you have signed in on your TV before, scroll to the right, select ▼ and press the **ENTER** button. Select your Skype Name and press the **ENTER** button.

1 Press the **ENTER** button with the box next to **Skype Name** highlighted. Two OSD (on screen display) windows appear.

✎ The application of remote control buttons—A, **ENTER** button and **RETURN**—is explained at the bottom of the main OSD window. ◀◀ and ▶▶ are explained in the right-hand side.

2 Enter your account name and press the **ENTER** button.

3 Scroll down to the box next to **Password** and press the **ENTER** button.

4 Enter your password and press the **ENTER** button.

✎ Be sure you have the cursor where you want it when entering the password.

✎ Once you return to the welcome page, you can tell Skype to sign you in or start up automatically; select the respective box and press the **ENTER** button.

5 Scroll down to **Sign in** and press the **ENTER** button.

✎ If you're unable to login, even though the network is operating normally, visit skype.com for help.

To create a new account:

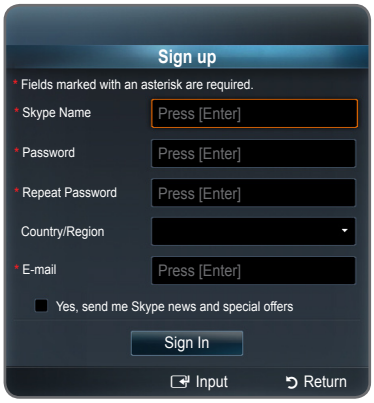
1 Scroll down to **Create account**.

2 Press the **ENTER** button.

3 The **License Agreement** will appear on the screen. Select **Agree** or **Disagree**.

✎ For more information on the license agreement, refer to "www.skype.com/legal/eula/".

✎ If you select **Disagree**, you won't be able to create a Skype account.



4 When the sign up window appears, enter your **Skype Name**, **Password**, **Country/Region** (optional) and **E-mail**, and select the corresponding box if you would like to receive news and special offers from Skype. Select **Sign In**.

Welcome to Skype

Using Skype

Contact

Each contact has an icon next to it:

Icons	Status
	Online
	Away
	Offline / Invisible
	Do not disturb

To call a contact:

1 Scroll to a contact who is online.

When a contact is selected, their picture and mood message are displayed.

2 Select **Video** or **Call** and press the **ENTER** button to call them.

- **View Profile**: See the selected contact's profile.
- **Send Voicemail**: Send a voicemail message to the selected contact.
- **Remove** : Remove the person from your Contact list.
- **Block**: Block this person from contacting you.

When in a video call

Both you and the person you are talking with are displayed on the screen. The banner near the top of the screen displays the call duration and signal quality.

When in a voice call

The caller ID (identification) and call duration appear in the OSD.

- : Hang up the call.
- **Volume**: Adjusts the volume.
- **Mute Mic. / Unmute Mic.**: Turns off/on microphone.
- **Hold / Resume**: Hold/resume the call.
  - A Skype contact will see a notification message when they are put on hold.
- **Video**: Switches to a video call.

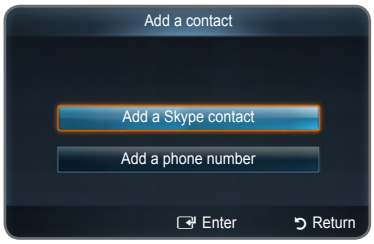
Help icon

- RED (**Sign out**): Select to Sign out, Quit Skype or Exit.
- Yellow (**Full view / Normal view**): Expands the image of the person you're talking with.
- Blue (**Camera off**): Switches to a voice call.
- **Options**: Displays the Options menu.

Welcome to Skype

Add a contact

Only available when the menu item **Contact** is selected.



1. After pressing the button, select **Add a Skype contact** or **Add a phone number**.
2. If you selected **Add a Skype contact**, press the **ENTER** button with the box under **Find people on Skype...** highlighted. Enter the person's Skype Name, full name or email.
3. Select **Find**. If you selected **Add a phone number**, enter the person's name (optional) and phone number. Select **Add**.

✎ **Add a contact** can be limited by memory capacity.

✎ If someone has sent you a contact request, **Add / Reject** will appear instead of **Video / Call**.

History

Shows the history of calls you've made, listed from most recent to oldest, top to bottom respectively. Each call has an icon next to it:

Icons	Meaning	Icons	Meaning
	Incoming call		Incoming voicemail
	Outgoing call		Missed voicemail
	Missed call		Incoming conference call
	Failed outgoing call		Missed conference call

Scroll to a call, select **Video** or **Call**, and press the **ENTER** button to start a call.

- **View Profile**: View the selected contact's profile.
- **Send Voicemail**: Send a voicemail message to the selected contact.
- **Add to Contacts**: Add this person as a contact.
  - ✎ This option is available when you don't have this person saved in your Contact list.
- **Block** : Block this person from contacting you.
- **Delete This Item**: Remove this item from your History.

✎ History can be limited by memory capacity.

✎ The time set on the TV is applied to the History. If your TV's time is not set, the time in the History will not be shown.

Call phones

Call phone and mobile numbers from Skype.

✎ To use this feature, visit skype.com on your computer to buy Skype Credit or a subscription.

1 Select the country or region you are dialing.

2 Enter the phone number with area code.

✎ If a phone number with 00 followed by the country code is entered, the entered number will be dialed regardless of the selected country or region.

3 Select **Call**.

Receiving a call

When you receive a call, a window will appear in the bottom, right-hand corner of your screen. Choose between **Video**, **Voice**, and **Reject** by selecting the appropriate icon and pressing the **ENTER** button.

✎ If a call comes in when another application is running, the call notification window appears. You must close the application before you can answer the call.

✎ If a conference call comes in, the Video option is disabled.

Setting up Skype

Options

✎ Be sure to save any changes made for each menu item (**User Profile**, **Change Password** etc.). If you do not do so before scrolling back to the vertical list, your changes will be lost. To save, press the D button on your remote control.

■ **User profile**: Add or change personal information - picture, email address, country/region and phone number(s)—here. To change your profile picture:

1 Select **Change**.

2 Scroll to the desired picture, and press the **ENTER** button, or select **Video snapshot** to take a picture with your webcam.

✎ If you want to add your state/province, city, gender etc. sign into Skype on a computer (available for download at skype.com).

■ **Change password**: To change your password, first enter your old password; then enter a new password twice.

■ **General settings**: Select whether you want Skype to launch automatically when you turn on the TV.

✎ In case the picture from your camera flickers (image brightness varies quickly), you should fix the power line setting in Anti Flicker and choose the power line frequency used in your country.

■ **Audio settings**: Select whether you want Skype to **Automatically adjust microphone settings**. If you don't want the microphone adjusted automatically, select **Off** and adjust the **Microphone volume** manually.

■ **Video settings**: Adjust the privacy settings for video. Choose who you will receive video from by selecting **Anyone**, **Only people in my Contact list** or **No one**. Choose who you send video to by selecting **People in my Contact list** or **No one**.

■ **Privacy Settings**: Choose who you will receive calls from. Select **Allow anyone to contact me** or **Only allow people in my Contact list**.

■ **Blocked Users**: If you don't want to hear from someone, block them by entering their Skype Name or phone number. Any blocked persons will be listed in this window.

✎ You can also block a person in the Contact and History lists by selecting the contact and pressing the **TOOLS** button.

■ **Call forwarding (diverting calls)**: To forward calls from your Skype account when you're not on Skype, add the phone numbers you want calls directed to. Select the country and enter the number with the area code. Enter the divert time to specify the delay before the call is diverted.

✎ You need to buy Skype Credit from skype.com to use this feature.

■ **Voicemail**: This feature allows people to leave audio messages when you are away. You can listen to the messages wherever you are signed into Skype. For more information or to get voicemail, go to skype.com and click on Account.

■ **About Skype**: View the Skype copyright information.
